

# SKF-Thrust bearings

Thrust ball bearing

Spherical roller thrust bearing

1. Features
  - M. Machined brass cage, roller guided
  - J9. Internal design change to J cage
  - F. Machined steel or special cast iron cage, roller guided
  - P5. Dimensional and running accuracy to ISO tolerance class 5 (approximately ABEC 5)
2. Features
  - E. Optimized internal design, window-type steel cage
    - . Machined brass cage (no symbol)
  - EF. Optimized internal design, machined steel cage
  - EM. Optimized internal design, machined brass cage RD Spacer sleeve
  - W64. Solid Oil lubricants
